

EAR-VITE® PLUS

Since 1998, many Ear, Nose and Throat physicians (Otolaryngologists), along with associated medical professionals have been recommending EAR-VITE® PLUS as dietary support for hearing health.

EAR-VITE PLUS ingredients supplement possible vitamin and mineral deficiencies related to noise-induced hearing loss, advanced age or stress. It is also recommended to help relieve distressing symptoms such as noises and/or ringing in the ears.

Our third-generation EAR-VITE PLUS formula includes 12 active ingredients. Separate clinical studies show that several of these ingredients have been found to provide dietary support for ear and hearing health.†

12 Active Ingredients

for Promoting Ear & Hearing Health†

- Vitamins C and E** Major antioxidants that neutralize free radicals which may impair hearing.
- Niacin** Helps promote blood circulation to the ears and a favorable lipid balance.
- Folate (as folic acid)** Important in maintaining efficient blood flow and nervous system functions. Deficiencies may lead to hearing loss in elderly people.
- Vitamin B-12** Clinical studies have shown an association with noise-induced tinnitus and hearing loss.
- Calcium Hydroxyapatite** The primary type of calcium in bone; helps balance magnesium intake.
- Magnesium** Researchers have clinically shown the value for noise-induced hearing loss.
- Zinc (as gluconate)** An essential mineral prevalent in the inner ear.
- Choline Bitartrate and Inositol** Lipotropics which facilitate the movement of lipids in and out of cells.
- Bioflavonoids** Have been shown clinically to benefit individuals with dizziness and balance problems.
- Ginkgo Biloba Extract** Published clinical studies suggest this herb promotes blood flow throughout the body, including the ears.

Supplement Facts

Serving Size : 1 Tablet
Servings Per Container : 120

Each Tablet Contains	Amount Per Serving	% Daily Value*
Vitamin C (ascorbic acid)	50 mg	80%
Vitamin E (dl-alpha tocopheryl acetate)	25 IU	85%
